Dynamik (dB)

Dynamic-Vergleich mit BASF CR-E II.  
Comparison of signal-to-noise ratio with BASF CR-E II.  
Comparaison de la dynamique avec BASF CR-E II.

**BASF CR-M II: Exklusives Chromdioxid für maximale Klangtreue.**

- konturenscharfe Wiedergabe von tiefreichenden Bässen bis zu extremen Höhen
- hochpräzises Gehäuse sichert ortungsscharfes, stereophones Klangpanorama
- hohe Hitzebeständigkeit beim mobilen Einsatz (Auto!)

**BASF CR-M II: Exclusive chromdioxid für maximum sound fidelity.**

- sharply contoured reproduction ranging from plunging bass sounds to extreme, high tones
- high-precision shell assures sharply positioned, stereophonic panorama of sound
- high resistance to heat in mobile use (in car!)

**BASF CR-M II: Oxyde de chrome exclusif, pour une fidélité sonore absolue.**

- magnifique transparence de tout le spectre sonore, des basses les plus profondes aux aigus les plus brillants
- un boîtier de très grande précision garantit la fidélité de la reproduction stéréo
- très bonne tenue à hautes températures, surtout en usage voiture
